RUTLAND

LOCATION—Rutland, known as "The Marble City," is located midway of the State north and south. It is about 15 miles from the western boundary and has many of the characteristics of the great neighboring State of New York. Distances as follows to important eastern points: New York 235 miles, Boston 167, Montreal 176, Philadelphia 325, Baltimore 420, Burlington 68, Montpelier 66, Bellows Falls 51, Glens Falls 50, Bennington 57, North Adams 77, Schenectady 95, Ogdensburg 224, St. Johnsbury 106, Brattleboro 77.

TOPOGRAPHY—Probably no important city in New England has so grand a setting as Rutland. The city lies among picturesque lakes and streams, the encircling mountains are near, yet far enough away to give plenty of building room and the broad valley running north and south for many miles is one of the beauty spots of America. Noted mountain peaks of the Green Mountain and Taconic ranges can be seen from high parts of the city. The highest peak visible is Mt. Killington, over 4,000 feet. City is 600 feet above sea level. Contains land area of 5,335 acres, water area of 100 acres.

HISTORICAL—The history of Rutland vies with any city in the land for interest. It was settled in 1761, and by 1774 there were 35 families. In common with all frontier settlements it suffered from the depredations of the Indians, and also from the Colonial and Indian Wars. Probably named after Rutland, Massachusetts, because the first grantee of the charter for township was a John Murray from that town. Incorporated a city in 1892.

INDUSTRIAL—Rutland leads the State in industry. In 1930 there

were 37 major plants producing \$6,118,927. Employing 1,642 with a payroll of \$2,093,861 annually. Materials used annually cost \$2,386,421. In the Greater Rutland industrial district there are 113 plants with 5,112 employees, and a payroll of \$6,642,906, value of products annually \$17,950,765. The leading products are antiseptics, medical products, awnings, flags, barrels, confectionery, cement, tile, dairy and creamery machinery, women's clothing, fire clay, roof cement, shirts, collars, ice cream, printing, maple sugar utensils, marble, mattresses, railroad car repairing, sand pumping machinery, scales, trucks, refrigerators, beverages, steam boilers, iron work, stone working machinery, tin cans, wood working materials, granite, slate, garden tools, toys, artificial stone finish, iron castings, fruit packing, clothes pins, threshing machines, saws, dairy products. The quarrying of marble, slate, lime, talc, soapstone and fire clay is extensively carried on in the Rutland district. Agriculture, fruit raising and dairying are important in the county. There are 44,184 farm animals in the county; 92% of the labor supply is native born. Average work day in factories is 8 hours, in building trades 8 hours. Available industrial sites are of the best and on trunk line railroads.

Webster Says:

PRINTING (*ing*), n. the art or act of impress-
 ing figures or characters on paper, etc.

We Say:

GOOD PRINTING consists of the art of
 impressing figures or characters on paper
 PLUS setting it in the proper type and proper
 style, carefully reading proof, having the
 impressions clear and even, using good quality
 ink and paper, and following the job through
 until the customer is satisfied that he has the
 best quality obtainable for the money he
 has spent.

You Will Say:

after you have examined our work carefully
 that it does pay in dollars and cents to have
 ALL your printing done where New England
 Craftsmanship is at its best, where intelli-
 gent supervision is given every job, and
 where there is a guarantee that if the job is
 not right in every respect it will be made so.

To make your history, watch your directory registration to see that it accurately records your position in life from year to year.

THE CIRCULATION OF THE CITY DIRECTORY EXTENDS TO EVERY CITIZEN OF THIS CITY. The Churches

WITH A TOTAL OF FIFTEEN, representing all the leading denominations, Rutland is well supplied with churches.

These noble edifices placed at intervals about the city add much to its attractiveness and charm.

It is the belief of many Rutlandians of vision that this full and adequate supply of churches is one of the greatest of the many resources of the city.

That for newcomers it is a factor that makes for the ready assimilation into the religious and social life of the community and hastens the time required to make citizens of the strangers who come to us.

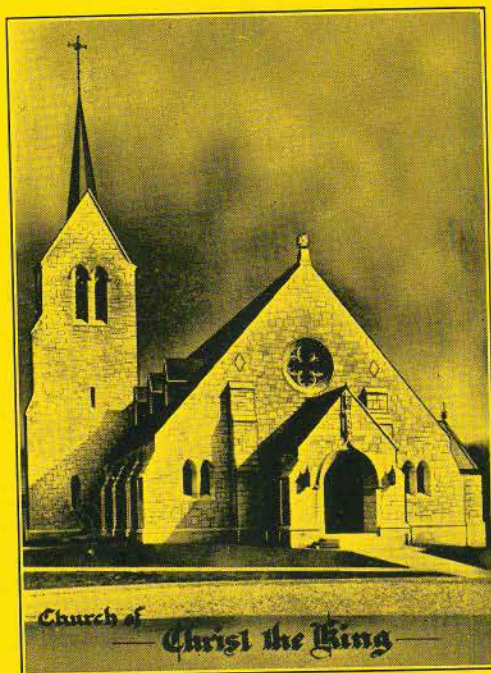

The church of today is the greatest of all institutions for the planting of good thoughts in the minds of the people and stands as the bulwark against degrading influences that surround us.

Therefore let us give a thought to these institutions that form so great a part of our city life and in visualizing our future greatness let us remember their value as . . .

A Factor for Progress

Industrial Rutland

As an Industrial Center, Rutland is in the pioneer class. Long before modern transportation came Rutland had its industrial structure founded. For many years the destinies of the industries here were guided by local men, and the present plants are the result of the energies of Rutland men.

Among the largest and oldest industries are marble and granite quarries, weighing scales, iron works, maple sugar makers' supplies, machinery, plaster, clay products, tin cans, sweeping compounds, railroad car repairs, fire clay, glass, concrete pipe and products, burial vaults, archery supplies, cemetery memorials, etc.

Rutland—the first city in Vermont industrially, manufacturers products valued at nearly \$10,000,000 annually. There are 37 principal industries employing 1,900, and paying wages of over \$2,000,000 annually.

In the Greater Rutland industrial district there are 113 plants with 5,117 employes, and a payroll over \$7,000,000, with annual products valued at \$18,000,000. The quarrying of marble, slate, lime, talc, soapstone, and fireclay is extensive. Agriculture and fruit raising are important.

Average work day in factories is 8 hours. Available industrial sites are plentiful, and located on trunk line railroads.
